After Ever After

Author:

Jordan Sonnenblick

Reading Level: Grades 6-8

According to people in his hometown, Jeffrey Alper is a hero. The 8th grader knows he isn't a hero. He's just the local "cancer kid" who had managed to stay alive since he was four years old. He's alive...yes. But Jeffrey has not escaped unscathed. The poisonous chemotherapy he has received over the past decade has left him with a limp and a serious learning disability. Two things that make it even more difficult for Jeffrey to be a "normal kid." This school year is even harder because his big brother Steven, the guy who got him through all the years of cancer treatment and pain has taken off to join a "drumming circle" in Africa leaving Jeff alone to navigate the trials of school, first love and an irascible best friend.
