## The Gathering

**Author:** 

Kelley Armstrong

Reading Level: Grade 7-9

16-year-old Maya and her adoptive parents live on Vancouver Island in an isolated forested town owned by a medical research company. There are benefits, Maya's K-12 school features the best instructors, technology and materials, but the school only has an enrollment of sixty-eight students. Maya loves the deep forest around the "town" but there isn't much to the town, movies, shopping and restuarants are a long drive away. Best of all, Maya is accepted, even though she is Native American, has a mysterious paw birthmark and an eerie connection to wild cats, especially cougars.

But this past year a string of dark occurrences have Maya questioning her heritage and how safe her isolated little town really is.
